01/18/2018		Mercedes-Benz USA LLC	Manufacturer Safety recall issued - NHTSA #17V627 - Recall #2017120022 Model 204. Model Years - 2012 - 2013. Steering Column Module - (SCM) Ground. Electri - Status: Remedy Available Click here or call 1-800-367-6372 to locate an authorized Mercedes-Benz dealer near you to obtain more information about this recall - Learn more about this recall

Description: Daimler AG (DAG), the manufacturer of Mercedes-Benz vehicles, has determined that certain MY12-13 C-Class Coupe vehicles (204 platform) have insufficient electrical grounding in the steering column components. In rare instances, if the steering column module is exposed to an electrostatic discharge, and if the steering column module clock spring is broken (due to wear), this could lead to an inadvertent deployment of the driver airbag. An inadvertent driver airbag deployment may cause a risk of injury to the driver and might increase the risk of a potential crash. A broken clock spring will illuminate the SRS warning light as well as display a warning message in the instrument cluster. An authorized Mercedes-Benz Dealer will install a sufficient ground to the steering column, and a protective ring to the steering column module.

An inadvertent driver airbag deployment may cause a risk of injury to the driver and might increase the risk of a potential crash.

Remedy: As a precautionary measure an authorized Mercedes-Benz dealer, will add sufficient grounding to the steering components on the affected vehicles.

09/19/2018		Arkansas Motor Vehicle Dept. Stuttgart, AR Title #761005056057	Registration issued or renewed - Loan or lien reported - Vehicle color noted as White

04/15/2020		Mercedes-Benz USA LLC	Manufacturer Safety recall issued - NHTSA #18V043 - Recall #2020040010 - Status: Remedy Available Click here or call 1-800-367-6372 to locate an authorized Mercedes-Benz dealer near you to obtain more information about this recall - Learn more about this recall

Description: Mercedes-Benz USA is recalling certain MY 2013 C-Class and GLK-Class Mercedes-Benz vehicles equipped with passenger-side frontal airbags affected by the defect decision of TK Holdings, Inc. ("Takata"). Under certain circumstances during a crash that necessitates frontal airbag deployment, the defect in your passenger-side frontal airbag inflator may cause the inflator housing to explode. A passenger-side inflator explosion during deployment could result in metal fragments striking the front passenger or other occupants, possibly causing serious injury or death. Replacement parts are available now! Please use below dealer locator to contact your closest authorized dealer immediately.

According to Takata, in the event of an inflator explosion, metal fragments could pass through the air bag cushion material, which may result in injury or death to vehicle occupants.

Remedy: An authorized Mercedes-Benz dealer will replace the passenger-side front airbag module in the affected vehicles. Replacement parts are available now! Please use below dealer locator to contact your closest authorized dealer immediately.

04/18/2020		Florida Motor Vehicle Dept. Miami, FL	Registration issued or renewed - Titled or registered as personal vehicle - Vehicle color noted as White

02/21/2022	55,089	Auto Auction	Vehicle sold

Make sure you buy this car from a licensed dealership or you may be a victim of curbstoning, which is illegal. A curbstoner poses as a private seller to sell vehicles for a large profit. Not cool!

Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Odometer Rollback

If a more recent odometer reading is less than an older reading, then the odometer may have been tampered with and "rolled back." CARFAX analyzes the mileage history and the sources of this information to indicate a potential odometer rollback.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Repossession

When a repossession occurs a vehicle owner fails to make loan payments, and the financial institution holding the title takes possession of the vehicle.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
